

5 Performance Stats from the 2014 Best in KLAS Awards: Software and Services Report

1

Diver outperformed the biggest BI brands.

Diver outperformed some of the biggest BI brands in the industry including SAP, Qlik, Tableau, SAS, Information Builders, and Cognos

2

Our score was 16% higher than the average.

Our score of 90.9 was leaps and bounds above the Software average score of 78.33 and the BI /Analytics average score of 79.80

3

Healthcare Users Value Analytics over Pure Visualization

Overall performance scores for the BI/Analytics category shows a trend towards healthcare users receiving more value from vendors able to live up to the "analytics" claim and take their organization beyond straight data visualization. Vendors like Dimensional Insight, and SAS Analytics all performed higher than leading visualization vendors like Tableau and Qlik.

4

We have the winningest record in healthcare BI.

The Winningest Record in Healthcare BI - Dimensional Insight has received 5 award-winning designations from KLAS since 2009: 4 Best-in-KLAS awards [2010-2012, 2014] and 1 Ranking for Category Leader in 2009.

5

And we keep getting better!

Dimensional Insight's performance is on the up-swing – our scores are 6% higher compared to last year.
